HCBS Federal Final Rule

HCBS Final Rule – Federal Language
Person-Centered Planning Process Rules
The individual will lead the person-centered planning process where possible. The individual's representative should have a participatory role, as needed and as defined by the individual, unless State law confers decision-making authority to the legal representative. All references to individuals include the role of the individual's representative.
Includes people chosen by the individual.
Provides necessary information and support to ensure that the individual directs the process to the maximum extent possible, and is enabled to make informed choices and decisions.
Is timely and occurs at times and locations of convenience to the individual.
Reflects cultural considerations of the individual and is conducted by providing information in plain language and in a manner that is accessible to individuals with disabilities and persons who are limited English proficient, consistent with § 435.905(b) of this chapter.
Includes strategies for solving conflict or disagreement within the process, including clear conflict-of-interest guidelines for all planning participants.
Providers of HCBS for the individual, or those who have an interest in or are employed by a provider of HCBS for the individual must not provide case management or develop the person-centered service plan, except when the State demonstrates that the only willing and qualified entity to provide case management and/or develop person-centered service plans in a geographic area also provides HCBS. In these cases, the State must devise conflict of interest protections including separation of entity and provider functions within provider entities, which must be approved by CMS. Individuals must be provided with a clear and accessible alternative dispute resolution process.
Offers informed choices to the individual regarding the services and supports they receive and from whom.
Includes a method for the individual to request updates to the plan as needed.
Records the alternative home and community-based settings that were considered by the individual

HCBS Federal Final Rule

HCBS Final Rule – Federal Language
Person-Centered Service Plan Rules
The person-centered service plan must reflect the services and supports that are important for the individual to meet the needs identified through an assessment of functional need, as well as what is important to the individual with regard to preferences for the delivery of such services and supports
Reflect that the setting in which the individual resides is chosen by the individual. The State must ensure that the setting chosen by the individual is integrated in, and supports full access of individuals receiving Medicaid HCBS to the greater community, including opportunities to seek employment and work in competitive integrated settings, engage in community life, control personal resources, and receive services in the community to the same degree of access as individuals not receiving Medicaid HCBS.
Reflect the individual's strengths and preferences.
Reflect clinical and support needs as identified through an assessment of functional need.
Include individually identified goals and desired outcomes.
Reflect the services and supports (paid and unpaid) that will assist the individual to achieve identified goals, and the providers of those services and supports, including natural supports. Natural supports are unpaid supports that are provided voluntarily to the individual in lieu of 1915(c) HCBS waiver services and supports.
Reflect risk factors and measures in place to minimize them, including individualized back-up plans and strategies when needed.
Be understandable to the individual receiving services and supports, and the individuals important in supporting him or her. At a minimum, for the written plan to be understandable, it must be written in plain language and in a manner that is accessible to individuals with disabilities and persons who are limited English proficient, consistent with § 435.905(b) of this chapter.
Identify the individual and/or entity responsible for monitoring the plan.

HCBS Federal Final Rule

HCBS Final Rule – Federal Language
Person-Centered Service Plan Rules (Continued)
Be finalized and agreed to, with the informed consent of the individual in writing, and signed by all individuals and providers responsible for its implementation.
Be distributed to the individual and other people involved in the plan.
Include those services, the purpose or control of which the individual elects to self-direct.
Prevent the provision of unnecessary or inappropriate services and supports.
Home and Community Based Settings Rules
Home and community-based settings must have all of the following qualities, and such other qualities as the Secretary determines to be appropriate, based on the needs of the individual as indicated in their person-centered service plan
The setting is integrated in and supports full access of individuals receiving Medicaid HCBS to the greater community, including opportunities to seek employment and work in competitive integrated settings, engage in community life, control personal resources, and receive services in the community, to the same degree of access as individuals not receiving Medicaid HCBS.
The setting is selected by the individual from among setting options including non-disability specific settings and an option for a private unit in a residential setting. The setting options are identified and documented in the person-centered service plan and are based on the individual's needs, preferences, and, for residential settings, resources available for room and board.
Ensures an individual's rights of privacy, dignity and respect, and freedom from coercion and restraint.
Optimizes, but does not regiment, individual initiative, autonomy, and independence in making life choices, including but not limited to, daily activities, physical environment, and with whom to interact.
Facilitates individual choice regarding services and supports, and who provides them.

HCBS Federal Final Rule

HCBS Final Rule – Federal Language

Home and Community Based Settings Rules (Continued)

Home and community-based settings do not include the following:

- (i) A nursing facility;
- (ii) An institution for mental diseases;
- (iii) An intermediate care facility for individuals with intellectual disabilities;
- (iv) A hospital; or
- (v) Any other locations that have qualities of an institutional setting, as determined by the Secretary. Any setting that is located in a building that is also a publicly or privately operated facility that provides inpatient institutional treatment, or in a building on the grounds of, or immediately adjacent to, a public institution, or any other setting that has the effect of isolating individuals receiving Medicaid HCBS from the broader community of individuals not receiving Medicaid HCBS will be presumed to be a setting that has the qualities of an institution unless the Secretary determines through heightened scrutiny, based on information presented by the State or other parties, that the setting does not have the qualities of an institution and that the setting does have the qualities of home and community-based settings.

Provider-Owned or Controlled Residential Settings Rules

The unit or dwelling is a specific physical place that can be owned, rented, or occupied under a legally enforceable agreement by the individual receiving services, and the individual has, at a minimum, the same responsibilities and protections from eviction that tenants have under the landlord/tenant law of the State, county, city, or other designated entity. For settings in which landlord tenant laws do not apply, the State must ensure that a lease, residency agreement or other form of written agreement will be in place for each HCBS participant, and that the document provides protections that address eviction processes and appeals comparable to those provided under the jurisdiction's landlord tenant law.

Each individual has privacy in their sleeping or living unit:

- Units have entrance doors lockable by the individual, with only appropriate staff having keys to doors.
- Individuals sharing units have a choice of roommates in that setting.
- Individuals have the freedom to furnish and decorate their sleeping or living units within the lease or other agreement.

HCBS Federal Final Rule

HCBS Final Rule – Federal Language
Provider-Owned or Controlled Residential Settings Rules (Continued)
Individuals have the freedom and support to control their own schedules and activities, and have access to food at any time.
Individuals are able to have visitors of their choosing at any time.
The setting is physically accessible to the individual.
<p>Any modification of the additional conditions, except the physically accessible rule must be supported by a specific assessed need and justified in the person-centered service plan.</p> <p>The following requirements must be documented in the person-centered service plan: identify a specific and individualized assessed need, document the positive interventions and supports used prior to any modifications to the person-centered service plan, document less intrusive methods of meeting the need that have been tried but did not work, include a clear description of the condition that is directly proportionate to the specific assessed need, include regular collection and review of data to measure the ongoing effectiveness of the modification, include established time limits for periodic reviews to determine if the modification is still necessary or can be terminated, include the informed consent of the individual, include an assurance that interventions and supports will cause no harm to the individual.</p>

News from the 1915(c) HCBS Waiver Programs

Service authorization webinar scheduled: DMS will host a webinar for providers on Thursday, Oct. 17 from 2:00-3:00pm EST. The purpose of the webinar is to review upcoming changes to the service authorization process. To attend the webinar, you must register beforehand. [DMS issued an announcement](#)  with detailed information on the webinar topic and how to register.

DMS informational webinars available to view: DMS recently hosted two informational webinars for stakeholders regarding the 1915(c) HCBS Rate Study and the updated criteria for hiring legally responsible individuals (LRIs) as Participant Directed Services (PDS) employees. If you were unable to attend the webinars, you can view a recording and the presentation from each online.
